## **Informed Consent General Dentistry**

### EXAMINATIONS AND X-RAYS

I understand that the initial visit may require radiographs in order to complete the examination, diagnosis and treatment plan, I understand I am to have work done as detailed in the attached treatment plan.

(initials\_\_\_\_\_)

### DRUGS, MEDICATION AND SEDATION

I have been informed and understand that antibiotics and analgesics and other medications can cause allergic reactions causing redness and swelling of tissues, pain, itching, vomiting, and/or anaphylactic shock (severe allergic reaction). I have informed the dentist of any known allergies. They may cause drowsiness, lack of awareness and coordination which can be increased by the use of alcohol or other known drugs. I understand and fully agree not to operate any vehicle or hazardous device for at least 12 hours or until fully recovered from the effects of the anesthetic, medication and drugs that may have been given to me in the office for my care. I understand that failure to take medications prescribed for me in the manner prescribed may offer risks of continued or aggravated infection and pain and potential resistance to effective treatment of my condition. I understand that antibiotics can reduce the effectiveness of oral contraceptives (birth control pills).

(initials\_\_\_\_\_)

### CHANGES IN TREATMENT PLAN

I understand that during treatment it may be necessary to change or add procedures because of conditions found while working on the teeth that were not discovered during examination, the most common being root canal therapy following routine restorative procedures. I give permission to the dentist to make any/all changes and additions as necessary.

(initials\_\_\_\_\_)

### TEMPOROMANDIBULAR JOINT DYSFUNCTION (TMD)

I understand that popping, clicking, locking and pain can intensify or develop in the joint of the lower jaw (near the ear) subsequent to routine dental treatment wherein the mouth is held in the open position. Although symptoms of TMD associated with dental treatment are usually transitory in nature and well tolerated by most patients, I understand that should the need for treatment arise, then I will be referred to a specialist for treatment, the cost of which is my responsibility.
